

FOR IMMEDIATE RELEASE

New Company “Book Your Memories” Launches to Help Families Preserve Their Legacy with Timeless Heirloom Books

Flower Mound, Texas — [September 15, 2025] — Book Your Memories, a new storytelling and publishing company, has officially launched, offering families a meaningful way to preserve their personal histories, values, and life experiences in beautifully crafted heirloom books.

Founded by **Pamela Dunnam**, Book Your Memories was born of a deep belief that the stories of faith, family, and heritage should not be lost to time but preserved and passed down to future generations. The company offers a guided, personalized process that transforms memories into professionally written and designed books, lasting keepsakes that capture the essence of a life well lived.

“Every family has a story worth telling,” said Dunnam. “Our goal is to make it easy, comfortable, and meaningful for people to share those stories and to create something tangible that their children and grandchildren will treasure for years to come.”

Through warm, one-on-one interviews and a collaborative storytelling approach, Book Your Memories partners with clients to document key life moments, personal values, and family traditions. The result is a custom-crafted book featuring narrative storytelling in the subject’s voice, curated photographs, and elegant design. It is produced using archival-quality materials built to endure for generations.

The service is ideal for a wide range of clients, including:

- Parents and grandparents who want to leave a legacy
- Veterans and community leaders with stories of service
- People who want to explore their ancestors’ stories and legacy
- Families seeking a unique and meaningful gift
- Individuals wishing to reflect on and preserve their life journey

At its core, Book Your Memories is grounded in the principle that strong communities are built on strong families. Preserving personal history strengthens both. The company is now accepting new clients and offers flexible packages tailored to individual needs and timelines. In conjunction with Bellview Publishing, it will also offer workshops on writing your story. Details are available from both companies.
